NORMAL STABLE SECURITY/STABLE SURVEILLANCE FOR INTERNATIONAL COMPETITIONS

ENFORCEMENT DIRECTIVES OF RV ART. 1005 2.5

1 - ACCESS TO THE ENCLOSED STABLE AREA

The stables must be completely enclosed by a barrier placed within an appropriate restrictive perimeter (stable area) which will serve both as a deterrent to the admission of unauthorized personnel and to the exit of horses. The structure must be sufficiently large to allow the evacuation of horses from the stable area in case of an emergency, but it'll remain within the confines of the perimeter.

Whenever possible the stable area must include only stables. The farries, caravans, etc., must not have access to this zone unless they are serving specifically as lodging for horses or grooms.

Access to stables will be limited to those persons indicated in Art. 1005 2.5.2 of the RV. It is essential that the official responsible for authorizing access must be a trustworthy person of seniority from within the Organizing Committee.

2 - ENTRY CONTROL

A control system must operate at all entrance gates in order to allow, by a reliable and efficient method, identification of all those who enter and leave the stables at any time.

Additional vigilance must be applied when identifying persons and reasons for entering the stables during the nighttime hours.

3 - SURVEILLANCE OF THE STABLE AREA

At least one stable steward directly responsible to the Chief Steward, must be present or readily available in the vicinity of the stable area 24 hours a day during the entire competition. He may be helped by assistants if necessary. The steward or his assistants must regularly patrol the whole stable area, without a pre-determined pattern in order to discourage any unlawful practices or abuse towards the horses. The steward responsible for stable surveillance must immediately be informed of any infraction which must, in turn, be reported to the Chief Steward.

The duty of the steward is to safeguard the welfare of the horses and to prevent any form of unlawful practices.

4 - GROOMS

It is appreciated that grooms may wish to remain with their horses during the night. Only grooms duly registered with the Organizing Committee have the authority to do so.

The person in charge must ensure that these grooms, or any other authorized persons with access to their horses, are familiar with security and the rigorous surveillance procedures operating throughout the competition.

5 - MOVEMENT THROUGHOUT THE COMPETITION AREA

Movement of horses between the stables, practice ring, rest area and main competition arena must be strictly controlled. An example of the optimum layout for the infrastructures of show jumping and dressage is attached. It is appreciated that flexibility will be required depending on the requirements of other disciplines.

6 - SURVEILLANCE OF THE PRACTICE RING

The Chief Steward must ensure that all the practice rings are adequately monitored during official opening times. He must also ensure that all practice rings or practice arena is adequately stewarded at all times when they are officially open. He must also ensure that random surveillance of practice rings is carried out when they are officially closed.

7 - REST AREA

For all outdoor competitions, a grazing area must be provided and be subject to casual surveillance. If this area is available, it must be used exclusively for grazing horses or walking them in hand.

The Foreign Judge/ID at competitions must especially monitor the application of prescribed directives, but in the most reasonable manner possible for each discipline. He must be aware of any shortcomings and, if necessary, changing the category of a competition could be considered.

The Foreign Judge/ID at competitions must especially monitor the application of prescribed directives, but in the most reasonable manner possible for each discipline. He must be aware of any shortcomings and, if necessary, changing the category of a competition could be considered.

WELFARE OF THE HORSE

CODE of CONDUCT

The Fédération Equestre Internationale (FEI) expects all those involved in International equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1 - At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.

2 - Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.

3 - Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.

4 - Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.

5 - The FEI urges all involved with the sport to attain the highest level of education in their areas of expertise.
